

Dear brothers, sisters, pastors, leaders, and *Canadian Chinese Churches* readers,

Since launching our online platform [newspaper.cccowe.ca](http://newspaper.cccowe.ca) last June, we here at *Canadian Chinese Churches* have been working hard to bring you rich content both online and on paper from various contributors, as we have always strived to do for the past 19 years.

1. **Hot topics.** In light of recent international geopolitical development, Rev. Peter Au's *Looking at War through the Ukraine Crisis* (6,400+ views) and *Russia and Biblical Prophecy* (5,400+ views) for "[The Timeliness of Christian Faith](#)" column have been widely-watched.

2. **Meeting needs.** In response to recent events and requests from church leaders, our latest [online forum](#), *Criminalization of Conversion Therapy and the Chinese Church*, features three experienced counsellors from different backgrounds (medical, law, and pastoral). They discuss the ramifications of the new laws on the church, and how we as Christians can respond to controversial issues inside and outside the church.

3. **Additional platforms.** Aside from paper media and our website, we have also added a [podcast](#), a [Facebook page](#), and a [YouTube channel](#). More ways for our readers to connect and share the content they find relevant! Subscribe now!

4. **Quality content.** The latest issue of our physical paper is coming this May (pictured), exploring the *New Normal of the Post-Pandemic Church*, the meaning of "not giving up meeting together" (Hebrews 10:25), borrowing from the reformers' experience of the plague, and four case studies of churches in Canada.

### Please Walk with Us in Prayer

By the grace of God and the support of its readership, *Canadian Chinese Churches* has been serving Chinese churches in Canada faithfully since 2003. In the coming days, please continue praying for us, watching/reading/sharing/interacting with our content, [contributing your own voice](#), and [supporting us financially](#). If you are interested in journalism, design, or web/social media development, we'd love to talk to you as well! [Get in touch](#) with us at anytime! Suggestions welcome!

May *Canadian Chinese Churches* be an open, interactive, and thoughtful platform used by God to bless Chinese churches in Canada.

Salute!

Dr. Anthony Chan  
Editor-in-chief, *Canadian Chinese Churches*
